Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 120 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 120 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 to 6, drawn to a composite material system, classified in class 524, subclass 492.
 - II. Claims 7 to 16, drawn to a core making process, classified in class 249, subclass 63.

2. The inventions are distinct, each from the other because:

Inventions Group I and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product as claimed can be practiced with another materially different product such as a non-polyvinylpyrrolinone material (polyvinylpyrrolidone) (US 6,325,958).

Art Unit: 1713

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper. It renders undue burden for the examiner to search both inventions at the same time.

6. During a telephone conversation with Rebecca P. Rokos (Registration # 42,109) on August 25, 2003 on inventions Group I and II, a provisional election was made with traverse to prosecute the invention of Group I, claims 1 to 6. Affirmation of this election must be made by applicant in replying to this Office action. Claims 7 to 16 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1713

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Rebecca P. Rokos (Registration No. 42,109) on August 26, 2003.

9. Cancel non-elected claims 7-16. Applicants reserve the rights to file a divisional application for claims 7-16. ✓

Allowances

10. Claims 1-6 are allowed.

11. The following is an examiner's statement of reasons for allowance:

As of the date of this office action, the examiner has not located or identified any reference that can be used singularly or in combination with another reference including the closest prior art of Lombardi et al. (US 6,325,958 B1) to render the present invention anticipated or obvious to one of ordinary skill in the art.

*The present invention relates to a **material system for preparing a mold core** used in the fabrication of composite parts comprising:*

*A **matrix composition** for forming the mold core, the matrix composition comprising a **water soluble thermoplastic binder** selected from the group consisting of **polyvinylpyrrolinone**, copolymers of **polyvinylpyrrolinone**, and combination thereof; and*

*A **finishing composition** for smoothing an outer surface of the mold core by covering any undesired surface contours or cracks on the outer surface, the finishing composition comprising a **water-soluble thermoplastic binder** and a **hardening compound**.*

The closest prior art Lombardi et al. (abstract; figure) disclose material system for preparing a mold core used in the fabrication of composite parts comprising a matrix composition comprising poly(2-ethyl-2-oxazoline) and polyvinylpyrrolidone water soluble polymers, and a finishing composition. However, Lombardi et al. are silent on a material system comprising a water soluble thermoplastic binder, polyvinylpyrrolinone. Since polyvinylpyrrolinone and polyvinylpyrrolidone are structurally different, it would not be apparent to one of ordinary skill in art to use the material system teachings in Lombardi et al. to obtain the invention of claims 1-6. Further, it would not be apparent to one of ordinary skill in art to use the polyvinylpyrrolidone material teachings in Lombardi et al. to obtain the polyvinylpyrrolinone inventive element of claims 1-6 because there is no teaching that would suggest that polyvinylpyrrolinone would be a suitable material for preparing a mold core in the composite fabrication technologies. Therefore, the invention of claims 1-6 is allowed.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
